For the Customers

Upon accessing the website, the user is promptly presented with an inviting login window. To gain access to the site's content and features, the user is required to diligently enter their designated login ID and password into the respective fields. Upon successful entry of these credentials, the user may then proceed to securely sign in and begin their experience on the website.

You then are greeted with a window which displays the flagship products and on the top right you can click on signout to exit from the window.

Features for customers:

1. **Easy Navigation:** The website has a user-friendly interface which allows customers to easily navigate through various categories such as clothes, e-appliances, and footwears.
2. **Popular Products:** Upon selecting a category, customers are presented with a list of popular products. Each product is accompanied by a photo, price, and rating to help customers make an informed purchase decision.

3. Add to Cart: Customers can add products to their cart with just a few clicks. The Customer can also remove items from the Cart As well.
4. Checkout: After adding products to their cart, customers can proceed to checkout and enter their billing address to complete their order.
5. Account Details: Customers have access to their account details, including current orders, cart, and account information. This allows for easy tracking of past orders and quick checkout for future purchases.
6. Logout: Customers can easily logout of their account from the account details pane.

For the Delivery Person

1. Login/Logout: The delivery person can login to their account with their credentials and logout when needed.
2. Dashboard: Upon logging in, the delivery person is presented with a dashboard that provides a quick overview of the status of their deliveries. This dashboard also displays the orders that need to be delivered and the orders that are still pending.
3. Shipping Section: The dashboard includes a shipping section that displays the details of each order that needs to be delivered. This includes the customer's name, address.
4. Address Section: The dashboard also includes an address section that shows the details of the delivery person, including their address and contact information.
5. Account Details: The delivery person can view their account details, which includes basic information such as their name, email address, and phone number.
